

Instruction on buying a Judoliitto license in Suomisport

The purchase of the Finnish Judo Association's (Suomen Judoliitto) license is carried out by the Suomisport service (www.suomisport.fi). **Please note** that in order to become a member of the Suomen Judoliitto and at the same time to become a member of the insurance policy, it is advisable to purchase the license as soon as possible when the judo training begins. The Finnish Judo Association's license (and insurance) will enter into force immediately after the purchase in Suomisport!

If judoka does not already have a valid license, the judoka must first register with the Suomisport service. In the case of a minor judoka, his or her guardian must make himself a Suomisport profile, after which he/she will attach his/her child to his/her own profile. Instructions for registering with Suomisport can be found on the Kajaani Judo Club website:
